& INDUSTRIAL
SERVICES

HAZARDOUS WASTE MANAGEMENT

Hazardous does not mean it has to cost the earth! We offer extremely competitive solutions for your Hazardous Waste. Whether you produce just a single drum or whether you require the export of container loads per week, we can provide you with a cost effective tailor made plan.

Lehane Environmental has access to numerous specialist waste treatment centres throughout Europe. Some wastestreams can be treated in Ireland and we currently have arrangements with these facilities to accept our waste consignments. For wastes requiring export, we can arrange the safe collection, shipment and overseas disposal/recovery of all wastes. This includes the setting up of TFS' (Trans-Frontier Shipment Forms) and C1's to facilitate the movement. We also have access to EPA Licensed Transfer Station in Ireland for smaller waste consignments.

Key Elements of this service include:-

- Recovery, Treatment, High Temperature Incineration etc.
- Setting up of TFS' from Producers Site.
- Packing of waste in accordance with ADR and IMDG.
- Redrumming of Waste for damaged drums.
- Turnkey Solutions incorporating Tank Cleaning & Shipment.
- Free listing of your Waste in the European Waste Exchange.
- Permitted Waste Collector (as per 2001 Waste Collection Regs).
- In-house Dangerous Goods Safety Advisers.
- ADR Licensed Drivers/Vehicles.

Hazardous waste packed in shipping container for export

Our fleet includes ADR approved Tractor Units, ISO Tanks, Skeletals for bulk consignments. We also operate a small 12 tonne ADR approved rigid truck which has a tail-lift to facilitate sites with small collections and/or no loading facilities.

Concerned about the documentation for hazardous waste transport?

Lehane Environmental provides all the necessary documentation for waste transport. This can include analysis, TREM Cards (Road Transport Emergency Information), DG Note (Dangerous Goods Note), C1 form (Movement of Hazardous Waste in Ireland Consignment Note), TFS (Transfrontier Shipment of Hazardous Waste –Export), DG Labels, Diamond Symbols & Placards. We also have a number of in-house DGSA's (Dangerous Goods Safety Advisers) as required under the 2001 Dangerous Goods Safety Adviser Regulations.
