03 December 2015

Dear Margaret

I want to thank you and all at Lehane Environmental & Industrial Services for your generosity and for helping people who are homeless, here in Cork, as Christmas approaches. We have gratefully received your kind donation of €500.00.

Support like this from companies like Lehane Environmental & Industrial Services is more important to us than ever. The numbers of people sleeping rough grows with every passing day. In the month of October alone 89 different people slept rough for at least one night in Cork, this is the highest number of people recorded sleeping rough in one single month in over three years.

Your generosity could help transform Christmas – and the future – for people who might otherwise face sleeping out in the bitter cold with nothing to protect them from the wind, rain and snow. Your gift could help someone have the chance to sleep safely and comfortably, enjoy a festive meal and receive the support that could help them begin to leave a life on the streets behind.

This donation may be the most treasured and most appreciated gift that you give this Christmas. Because it could be genuinely life changing.

With our deepest thanks
Happy Christmas

Sinead Naughton
Corporate Partnerships Coordinator
